THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D.C. 20505

Deputy Director for National Foreign Assessment

NFAC 4849-81

MEMORANDUM FOR THE RECORD

FROM: [redacted] 25X1
Special Assistant for Nuclear Proliferation
Intelligence

SUBJECT: IG Meeting on Non-Proliferation and Nuclear
Export Policy

The IG met on Tuesday, August 4th at 2 p.m. at State Department, Harry Marshall in the chair. The meeting was spent going through the various action items [redacted] on US Non-Proliferation Policy. 25X1
Mr. Marshall assigned drafting responsibility to approximately half a dozen papers related to nuclear policy issues with State and ACDA as the primary drafters. Two papers related to intelligence issues were discussed. State Department was requested to draft a user-oriented paper on intelligence information needs to support US non-proliferation policy. [redacted] will be the drafter and will work closely with [redacted] and myself on the paper. A second joint State/CIA paper was requested on developing cooperation with certain countries in intelligence matters and sharing intelligence information dealing with non-proliferation. I raised objection to this, pointing out that we already had a good deal of cooperation in being, and that I did not think it would be wise or possible to put down in a policy paper specific action plans for intelligence cooperation with foreign governments. Harry Marshall took this under advisement and said he would talk to me later about this issue.
